## CANADIENS COME HOME NEXT WEEK

Members of Canadien Hockey Team, World's Champions at Professional Hockey

Reading, left to right—S. Cleghorn, S. Mantha, Joe Malone, Aurel Joliat, Manager Leo Dandurand, Howie Morenz, Ed. Duford (trainer), W. Boucher, W. Coutu, Odie Cleghorn, George Vezina.

The above picture was taken in front of the Grimsby Arena last November by Murdoch, the Grimsby Photographer.

World's Champions Will Be Accompanied by "Newsy" Lalonde and the Saskatoon Sheiks—Both Teams Will Practice At Local Ice Palace—Will Play a Game on Wednesday Night—Arena Will be Open for Skating on Thursday Night.

"Well, Bugs," as Artie Clark, the Nottawasaga Flash says, "the smallest town in the world with an artificial ice rink, is going to have a great and colossal collection of professional hockey players in its midst next week—thanks; yes, double thanks to the one and only Leo Dandurand, who has done more to put professional hockey in the select list of sports than any other man in Canada."

On Monday morning next, at precisely 8.54 (and the C.N.R. is always on time now), there will arrive in "the Florida of Canada" as Sprague Ch. home calls this district—not only the dapper Leo Dandurand and his crew of world's champion Grimsby Canadiens, but also the great and only "Newsy" Lalonde and his famous Saskatoon Sheiks—the most formidable contenders that the Calgary Tigers champions of the Western Canada league had last season. "Newsy" and his fighting bunch of puck chasers are coming to Grimsby for early season training at the invitation of Mr. Dandurand, who is a Grimsbyite in every sense of the word—except that he did not have a vote on Oct. 23rd.

"Leo", who is one of the two only really and truly French-Canadian residents that Grimsby ever had, is coming back to the Peach Town to train his wonderful aggregation of Canadiens for the third time, because, as he says: "Grimsby has brought me success and I appreciate it; I appreciate the manner in which the people of Grimsby have treated myself and my boys, so here I am."

As a result of this appreciation, Mr. Dandurand is also bringing to our fair district next week, "Newsy" Lalonde and his team of Saskatoon players, who are in the east for practice purposes, to our town, and the both teams will practice in the "rink de impossible" for two weeks, commencing on Monday morning. Another tribute to "Jimmy" Farrell and "Sammy" Bonham, despite the wall of the "M. J. J. Club."

Manager George Hoshal, of the Arena, tells The Independent that the practices of the Canadiens and Sheiks will be held behind closed doors and not even the closest friends of Mr. Dandurand or himself will be allowed inside. This is good dope and both teams will benefit much from it.

Mr. Hoshal also spills another big bucketful of dope when he asks us to tell the great unwashed public that on Wednesday, November 19th, these two great teams of professional hockey players will play an exhibition game in the Grimsby Arena. This will be the first time since the opening of the Arena that a professional game has been played, and we believe that it will be the first time in the history of the world that a professional game has been played in a town as small as Grimsby. This game has been arranged through the generosity of Mr. Dandurand, in order to assist the Arena.

This game promises to be a whizzer as both teams have a lot of young raw material on their rosters and as they have a hard struggle ahead of them in their respective leagues they wish to know just what is what as regards to the men who will draw salaries all through the cold winter months. This game also will be the first of a series of four barnstorming games throughout Ontario in the cities of Nipaw, LaSalle, Stratford, London and Hamilton, with the teams making Grimsby their headquarters and playing out of here.

While the Arena will be in operation for the "pro" boys and the use of the Peach Kings on Monday, the general public will not be allowed inside the doors until Wednesday night.

On Thursday night the rink will be open for public skating and further announcements of skating nights will be made by Manager Hoshal in next week's Independent.

While in town, both teams will make their headquarters at The Village Inn, where mine host Servais is already busy making special preparations to hand'e them in his usual first class style, as well as looking after the comfort of his regular guests. The Pro. outfit all told, will number in the neighborhood of thirty.

### BOYS HAVE WILD TIME AT JORDAN

It Is Alleged That Seventy Young Men Carried Out High Jinks on Halloween Night—Tore Down a Building

(St. Catharines Standard)

An unusual Halloween party, which resulted in police officers being called in the tearing down of an old barn on the property of Mrs. Charles Butcher at Jordan. It is claimed that a party of at least seventy young men, all attired in Halloween costume and masks, participated in the destruction and five have been arrested on charges of doing malicious damage. Those charged are: Harvey Willis, Morgan Willis, Clifford McNinch, Arnold Neathcote and Orville Honsberger.

The story was unfolded in the trial of Clifford McNinch, it being decided to hear the evidence in each case separately. The witnesses were all excluded from court and the spectators were also excluded in this order, the latter due to laughter which broke out at the opening of the case. The spectators included a large number of the residents of Jordan who had come to the city just to hear the case.

Mrs. Butcher first broke down on the stand but later told of the happenings on the evening of October 31. Early in the evening her yard had been showered with stones, apples, etc., but the real damage did not start until about 10 o'clock when a crowd of young men, whom she thought had just come from a party in the hall, surrounded her barn and began tearing off the weatherboards, doors, etc. They even secured an old straw mattress from the barn and set it afire just outside.

In her statements she fails to connect McNinch with any of the damage, but admitted that he had been instrumental in squelching the fire that had been lighted in front of the barn.

The case was adjourned until Friday next. According to Provincial Constable Joseph Nelson, the events of the evening included tying a rope around the waist of Mrs. Butcher and dragging her through a field. She sustained numerous scratches and bruises. Mrs. Butcher, not being able to identify any of those who participated in this outrage, it is not probable that the occurrence will be mentioned in connection with this case.

In cross examination by M.A. Seymour, solicitor for the defendants, it was brought out that the roof of the barn had fallen in two years ago. Mrs. Butcher noted that she had never been instructed to take the barn down as it was a menace, and she had declared that it had been standing for 23 years. She stated it was used for storage purposes.

### LECTURE HAS TO BE CANCELLED

On page 6 of this issue of The Independent appeared an advertisement of a lecture by J. Z. G. Watson in Moore's theatre. This half of the paper had been gone to press before word was received that Mr. Gratteau had been cancelled and the lecture had been cancelled for that date.

### TOWNSHIP ROAD WORK OF YEAR

Much Work Done—Some Splendid Grades—Superintendent W. B. Russ Accompanied by Town Council Members on Tour of Inspection

Reeve William Russell, Deputy Reeve W. B. Russell, Councilmen Fred A. Oakes and W. H. VanDusen, and Road Superintendent W. B. Russ accompanied by the Independent made a tour of inspection of the township roads on Monday last, Nov. 10.

They started in the automobiles of Deputy Reeve Stewart and Councilman Oakes, but Oakes had two punctures on the thirty mountain and the rest of the party continued the trip in the Stewart machine.

Baker road—This road has been ditched, graded and gravelled, and a big cement culvert put in about 150 yards from the highway.

Central avenue—Has been given a coat of gravel at the west end and cinders from the C. N. R. at the east end.

Lake avenue—This is the new road that has been built from Park road through to the Clinton town line, and has received a coat of cinders on the west end. It is quite easy to tell where the Grimsby section of the road ends and the Clinton section begins—Grimsby has a real road. The east end was done this year and has been ditched and graded.

The next two roads visited were on the thirty mountain; one running between Lots M and L and the other between L-O and K-P in the East Gore east from the thirty road. Both of these roads are clay but they have been ditched and graded to a width of twenty-two feet, and are in the very best of shape, it being very noticeable where the North Grimsby line ends.

Thirty road—This road was signed to the South Grimsby line last year, and on the south end some gravel was placed this year, making an exceptionally good road.

Near the town line a new cement bridge has been built over the famed Kupidz drain, and there will be no need of another for ages to come.

West of the thirty road, on the line between Concessions 5 and 6 the road was fixed last year, and it too, is in the best of condition. The county road running north and south between Lots Two and Three (Park mountain road) is not in as good shape as any of these.

The road west from Lot Three between Concessions Four and Five was stoned some years ago before the road was graded, but now it has been graded and a coat of gravel added which makes an excellent highway. Several cement culverts have also been put in.

Town line (Mad Street)—Here the two townships take alternate roles, and with all due respect to the South Grimsby road builders, one can not help but be struck with the difference in the different miles. All along on the North Grimsby portion concrete culverts have been put in which are especially noticeable at the school house in Union school section No. 3. The town line between Grimsby and North Grimsby is in lastingly poor condition. From Mad street the trip was continued north on the line between Lots Twenty-two and Twenty-three to the Ridge road. This road was fixed three (Continued on Page Five)

"NEWSY" LALONDE  
Manager Saskatoon Sheiks

### FREIGHT WRECK AT C.N.R. STATION

A peculiar wreck occurred in the Canadian National railway yards at Grimsby on Sunday last, Nov. 9, about eleven o'clock, when manifest freight train No. 485, westbound, had twelve cars derailed by a broken flange on the wheel of a car loaded with newspaper consigned to Chicago.

The break occurred about 250 feet from the east end of the north switch, and when the last four derailed cars came to the switch-point they mounted the rails and remained upright on the rails. The six preceding cars were piled across the westbound main line. The eastbound main line was open, and crossovers at each end of the yards permitted through traffic with no delays. The depot street crossing was blocked with wrecked cars, but just west of the crossing the train broke in two, the front portion sliding on about 250 feet.

At the side of the switch the water standpipes were demolished, but the cut-off was not damaged, though the trucks of one of the derailed cars landed in the pit.

A third peculiarity was the heading of the outside rails of the switch into a bow at least thirty feet from the line, the rails holding together by fish-plates. The auxiliary train and crew from Hamilton responded quickly, and in an almost incredible short time had all the cars replaced on their tracks and shunted onto a siding.

### TOWN COUNCIL

A special meeting of the town council was held on Thursday evening, Nov. 6, when the tax arrears list was discussed. It was decided to request H. R. Clover, the auditor who over the books some weeks ago, to come to a meeting and explain some discrepancies apparent in the balance sheet of the town.

The lectures in Modern Astronomy to be given at the Village Inn by J. R. Gibbs will commence on Tuesday, November 18th at 8.30 p.m. These ten lectures are for the amateur student, and anyone interested in the fascinating study of the stars. Season tickets \$2.00; students \$1.00, single admission 25c.

### ROYAL BANK BUDGET BOOK

Published With the Idea of Assisting Anyone in Keeping Account of Money Received and Money Spent—Useful Tables.

Here is something that should interest every householder, especially the women, and it costs nothing. The Royal Bank has issued a book—The Royal Bank Budget Book—which it is handing out to heads of homes for the purpose of keeping track of income and expenses in as much detail as the user cares to write. There are forty-eight pages—four pages for each month of the year—devoted to amounts received; savings; paid for insurance; paid on house; paid for food; paid for clothing; routine; rent; taxes, etc.; doctors, drugs, etc.; sundries; advancement; entertaining; church; charities; and a monthly summary of all. Ahead of these pages there are four pages devoted to instructions and suggestions, and following the twelve monthly allotments there are two pages for a summary to make the income tax analysis easy. Then follow other pages for the entry of general statistics, and five pages for memoranda. The excellent part of the book will play is that it will show the leaks in the family budget, and offers an inducement to make an attempt to save. The book is dedicated to the person who says: "I am not extravagant, I earn as much as others yet I never seem to have any money saved on hand." And the book is intended to be helpful in answering the problem.

"MOPPING UP" AFTER A BROKEN FLANGE

Wreck in C.N.R. yards at Grimsby, on Sunday, Nov. 9th. Top view taken from north side about where water standpipe was broken off. Below—south side. Eastbound main line track is shown. The man alone between the rails is Walter Shavallier, section foreman. The photographer was hidden behind some box cars on the south switch.

FANCIES  
BY FRANK FAIRBORN

## U. S. Elections—

I told you so! Coolidge won in a walk. He had  
only ten million majority.LaFollete polled over four million votes—he  
wasn't entitled to 400 votes.LaFollete has done more harm to the United  
States and the world in the last ten years than any  
other public man in existence.The pernicious stand of LaFollete in regards to  
the war and afterwards against the League of Nations  
did incalculable injury to the prestige of the United  
States and the peace of the world.

## The English Landslide—

It doesn't take them long to do things in blooming  
old "Hingland" One government is out and another  
government is in while you would snap your fingers.Now that Stanley Baldwin is premier again he will  
likely give Canada a measure of preference in the  
British markets. Baldwin has the right idea on em-  
pire trade, but the free trade bug has such a hold in  
Great Britain that it is difficult to get an empire wide  
preferential trade policy established.Now that the Republicans have received a new  
lease of life in the United States, Canada will not re-  
ceive any tariff favors. It is therefore all the more  
necessary to seek a preference for Canadian products in  
British markets.

## Leading Leaders—

Premier Ferguson, speaking at a banquet in Tor-  
onto, said in reference to the O.T.A., that it was the  
duty of a leader to lead.Quite so! But Premier Hearst led on the O.T.A.  
—but where did he lead to?Premier Drury led on the O.T.A.—but where did  
he lead to?Premier Ferguson is now leading on the O.T.A.—  
but where will he lead to?

## Unripe Fruit—

I wrote in these columns about the fool  
practices that our fruit growers have gotten into of  
shipping their fruit from ten days to two weeks before  
it is ripe. I now want to mention two or three special  
cases that came under my own personal observation  
during the season.I was selling my own fruit on the Highway at Jordan.  
I wanted to buy a few peaches, and I went to a  
very reputable grower and secured two or three baskets,  
picked in the usual way for shipping—I found they  
were too hard to offer for sale, so I held them. Each  
day I sorted them over and selected the few that were  
ready to use and I continued this process for ten days  
before I placed the last of them on sale.Strange to say, none of them rotted or wilted, but  
gradually improved in color and got soft enough to  
use—and more strange to say, the last ones that I sold  
on days after they were picked, were sufficiently firm  
to stand shipment to nearby points.Now just imagine a housewife in Toronto, or Ot-  
tawa saying these peaches the day after they were ship-  
ped, expecting to use them either for table use or for  
canning—she would simply have been disgusted as she  
could not have used one per cent of them the day she  
bought them and could not have used 25 per cent.  
of them within five days after she bought them.But had those peaches been left on the trees ten  
days longer, the housewife would have been delighted  
with them as she could have used fifty per cent. of them  
as soon as she received them and the balance of them  
within a few days.Another case—I bought twenty baskets of plums  
from a good grower. He said he had left them on the  
trees longer than usual as he wanted to sell them onthe highway. They were highly colored and looked  
fine.I took them to my stand and treated them as I  
had done the peaches—sorting out a few each day and  
offering them for sale. Two weeks after they had been  
picked I sold the last of them in fine condition, and  
strange to say, I didn't lose half a dozen plums by it.Now, although these plums were well colored and  
looked fine the day I bought them, there was not twenty  
plums in the twenty baskets that a housewife could  
have used the day I bought them.And listen to this: Growers of this same variety  
of plums all around the neighborhood where I got them,  
had picked and sold their plums fully one week before  
the plums I got were picked. What must the house-  
wives have thought of the plums which they got from  
that neighborhood?If any one is sufficiently interested to inquire, I  
will tell them the names of the men from whom I  
bought these two lots of fruit and they will admit at  
once that they are both No. 1 growers.And I will say further that I bought fruit from  
several growers all the way from Grimsby to Jordan  
this year and I never got one basket of fruit fit for  
immediate use, except from one man—Dr. Wolfenden,  
Thirty Mountain.I bought quite a lot of peaches from him and they  
were all ready for use within three or four days, and  
yet firm enough to carry to any point in Ontario or  
Quebec.The fruit growers have gone crazy on the point of  
picking firm fruit at the solicitation of the dealers who  
rush the season on every variety at least a week ahead  
of the fruit being ripe.The dealers have nothing at stake—some of them  
haven't even a penny invested yet by their fool prac-  
tice of shipping green fruit—they are ruining the grow-  
ers who have millions invested.SOMETHING FOR NOTHING  
(Toronto Saturday Night)Did you ever notice how long and earnestly people  
work to acquire something for which they give no re-  
turn, either in kind or labor. At the Canadian Na-  
tional Exhibition congrats each year thousands of  
people who make it a business to gather in samples of  
one sort or another. Anything and everything that  
comes their way is fair game. It matters not that most  
of it is of no earthly use to the collectors, who after  
nursing the mass of swindlers, or listen to the high pres-  
sure salesman who care not what they sell so long as  
they get their twenty-five or fifty per cent. commis-  
sion. It is upon those who are in a something for  
nothing frame of mind that these hawk prey.Long queues of people were seen standing patiently  
awaiting their turn to be presented with a tiny bottle  
of scent. That it may have taken a half hour to get  
from the bottom of the line to the top mattered not,  
just so long as eventually they got something for no-  
thing. Of course in order to get into the proper frame  
of mind to become an active collector at an exhibition  
one must figure his or her time as worth nothing. If  
it is worth anything then the practical collector would be  
to go and buy the article, whatever it may happen to  
be, in the regular way, thus not only saving time but  
eliminating weariness.There are a lot of people who take this mania into  
the world of business. Something for nothing has a  
strong appeal among those who are not versed in the  
ways of finance and business. They are the ones who  
bite at the promises of hundreds of per cent. profit per  
annum. They are the ones to bark to the piffle put  
out by Texas oil swindlers, or listen to the high pres-  
sure salesman who care not what they sell so long as  
they get their twenty-five or fifty per cent. commis-  
sion. It is upon those who are in a something for  
nothing frame of mind that these hawk prey.Of course in time most people who start in with the  
illusion that something really worth while can be ob-  
tained for nothing learn better. But the lesson is a  
hard one and the road to caution is often drenched with  
tears and paved with regrets.When people learn that what they are to possess in  
this world they must be prepared to work for, and that  
something for nothing is a delusion, the stock selling  
swindler will be obliged to go to work. The Ponzie will  
be no more, and the jail keepers will have less to do.A LITTLE TALK ON THRIFT  
(By S. W. Straus, President American Society for Thrift)The mere act of saving money can not be designated  
as the only standard of thrift. Not every one who  
saves money is thrifty in the truest sense. The prin-  
ciples of thrift may manifest themselves in ways other  
than the piling up of funds in a savings bank. For  
example, there are thousands of Americans whose  
savings go directly into payments on homes.However, the development of the country's savings  
accounts is an excellent barometer of the popular de-  
velopment of thrift practices. It is gratifying to note,  
therefore, a constant growth in the savings banks,  
accounts, amount of savings deposits, and percentage of  
savings.According to figures compiled by the Savings Banks  
Division of the American Bankers Association, the 1924  
savings banks deposits are in excess of \$20,700,000,000,  
a gain over 1923 of \$2,300,000,000. Only as far back as  
1912 our savings bank deposits were \$8,425,000,000.  
The per capita of savings was then \$28. Today it is  
more than \$166.For the past ten years savings have grown steadily,  
but at no time has the yearly increase been as great  
as the current figures show.While the average American is earning more money  
today than ten years ago, and his saved dollar does not  
represent the value of the dollar saved in previous  
years, we cannot get away from the fact that the great  
mass of the people of this country are constantly  
learning their lessons in thrift.Many forms of extravagance are being indulged in.  
There is waste on every hand. One does not need to  
look far to find inefficiency.But, taken in its entirety, the national economic con-  
dition in the United States are growing steadily better.  
Besides the growth of savings bank and school bank  
deposits, we have increased investment in legitimate  
ventures, gains in building and loan association mem-  
bership, a tremendous increase in home ownership,  
and a host of other equally favorable indices.This is the result of direct and indirect educa-  
tional work which has intensively been in progress in  
the last decade.It is encouraging and significant to note these de-  
velopments. They mean more happiness for the peo-  
ple; greater advancement for the nation.Steward—"I thought I'd just bring you a little  
something to eat up here on deck, sir, and save you  
trouble."Passenger—"Thanks, Stewart, just save me a  
little more trouble and throw it over the rail."The following is from a notice posted outside a  
church in England: "On Saturday night, at 8 p.m., the  
annual potato-supper will be held, and on Sunday  
morning the subject of the sermon will be, 'A Night of  
Horror!'"There's nothing more to it, now. A bunch is  
just the triumph of matter over mind.

## The Once Over

By H. I. PHILIPS

COME OVER AND PLAY GOLF  
SOME NIGHTHome, Sweet Home has been struck  
another body blow. Night golf on an  
entirely lighted course has been estab-  
lished, as possible. Hereafter when a  
golf widow's husband stays out all  
night the first suspicion will be that  
he was playing in a dusk to dawn  
golf tournament.From now on a golf course may be  
judged not so much for its greens as  
for its lighting system."Ever play Geranium Hills?" one  
golfer will ask another.

"No, but I'd like to."

"Come over some night and try it."

"Is it a pretty fair course?"

"Marvelous! We've just had the  
illuminating plant entirely rehaul-

ed at a cost of \$15,000!"

"How big is the course?"

"Seven hundred."

"Holes?"

"No; are lights?"

"Are there any hazards?"

"Yes, there's a dark corner on the  
sixth and two broken bulbs on the  
eleventh. Then there's a short circuit  
on the fourteenth green that gives a  
player a lot of trouble if he doesn't  
carry matches."

"Is it well trapped?"

"One of the best men in the busi-  
ness supervised the trapping."

"Who was he?"

"Eddie Zwilch."

"Is he an authority on golf?"

"No, but he's an expert on lighting."

"What's considered a good score  
there?""Well, I played it last Saturday  
night in 17."

"Strokes?"

"No; matches."

"What happens when you drive a

half into the darkness?"

"A player is allowed to take a pen-  
alty of two strokes and put a new ball  
in play under the nearest electric  
light."

"Who's the club champion now?"

"Elmer Griggs. He plays a won-  
derful game of night golf. Never  
loses a ball!"

"What makes him so good?"

"He used to be a night watchman in  
a moth ball factory."

"How are your caddies?"

"Fine. Every one of 'em is a  
licensed electrician.""I'd like to have you play my club  
the Daffodil, some night, too."

"I hear it's in bad condition."

"It was in bad condition but it's  
great now."

"Is that so?"

"Yes; we've had the course entirely  
rewired!"MINING WEALTH  
BARELY TAPPEDHow the rocks of Northern Ontario  
hide fortunes to be dug out by the en-  
terprise of man, how 90 per cent.  
of the potential mining wealth of On-  
tario has not yet been developed, how  
the history of a billion years could  
be traced in the romantic story of the  
rocks—These were some of the  
things that Prof. H. E. T. Haultain  
told his audience while lecturing at  
"Ontario's Golden North."The primary schools of Ontario  
must face the children to the north  
instead of to the south," he said.  
Sudbury district provided 90 per cent.  
of the world's nickel, and there was  
enough to provide for many gen-  
erations yet. The Cobalt silver fields  
were the greatest on earth, and in  
Porcupine and in Kirkland Lake the  
province had the most phenomenal  
gold producing district. He predicted  
that in a few months Hollinger would  
be the world's most productive gold  
mine.At a reception to Sir Henry Thon-  
ton in Hamilton on Wednesday, Oct.  
25, the Hon. James Lyons, minister of  
Lands and Forests, gave an address  
on the resources of Canada, and in  
referring to the mineral wealth  
said:"Canada will shortly be the largest  
producer of gold and silver in the  
world. Our rich fisheries also play  
an important part in Canada's de-  
velopment. The forests of this Dom-  
inion are the third largest in wealth  
in the world. Last year we produced  
2,000,000,000 feet of lumber. We  
have in Canada the largest coal areas  
in the world but we must await  
production to refine that coal."Turning to the provincial aspect,  
Hon. Mr. Lyons spoke of Ontario's  
railway, the T. & N. O. This railroad  
has been the direct means of opening  
up the greatest mineral wealth the  
world has known.  
According to figures recently com-  
piled by A. C. Bateman, secretary of  
the Ontario Mining association, he  
estimates that the mineral production  
of Northern Ontario during 1924 will  
be \$75,000,000. He estimates that  
\$23,000,000 of this amount will be  
used for wages, about \$10,000,000 for  
dividends, while about \$4,000,000 will  
be spent in purchasing supplies and  
equipment. The spending annually  
of these huge sums by the Ontario  
mines shows how the mining industry  
is contributing to our national pros-  
perity.

## AUCTION SALE DATES

FRIDAY, NOVEMBER 15th—On this  
date I will sell by public auction the  
household furniture and miscellaneous  
articles on the property of Mrs. Is-  
bella Stewart, one half-mile north of  
the Highway at Fruitland, Yema-  
cash. Sale at one o'clock. J. A.  
Livingston, auctioneer.

## MORE EGGS from Each Hen

The use of hens is to lay eggs and hens will positively lay more eggs  
GUARANTEED if you put a dose of Pratt's Poultry Regulator in one feed  
every day. Your dealer is authorized to give back your money if it fails.

## "THE HOME OF QUALITY GROCERIES"

## Economy In Coffee

Nearly all of us try to economize, but we often lack the information necessary to enable us to choose best values, and at the same time avoid extravagance. Low prices in coffee are particularly deceiving. The comparative strength of different blends is little known to consumers, and they rarely compare flavors or aromas.

Experience and exhaustive tests prove the best coffee to be the most economical and we call your attention to "Excelsior" Blend, because it will make more cups of better quality than any other coffee.

Use "Excelsior" and enjoy the double satisfaction to be derived from drinking the best coffee on a money-saving basis.

## Local Items Of Interest

Town council meet tonight.

Send in your news items.

Christmas will soon be here.

The Beamsville Methodist church Ladies Aid is preparing for the annual Bazaar and Tea on Thursday, Dec. 4.

Mrs. and Mrs. G. W. Sibbald spent a few days visiting friends in Oakville, and also at Port Credit and Clarkson.

The Ladies Association of the Beamsville Presbyterian church will hold its annual sale of work and cafeteria tea on Friday, Nov. 28.

Lots of people never cast their bread upon the waters unless there is a reporter around to make a note of it.

A Thanksgiving chicken supper and concert will be given in the Thirty mountain Union church on Thursday, Nov. 13th, at 7 o'clock, under the auspices of the Ladies Aid.

An afternoon tea in aid of St. Albans church, Beamsville, is being held this afternoon at the home of Mrs. W. Andrews, Lakeland. There will be a musical program.

Grimsby Arena opens for the season on Wednesday night next with a pro hockey game between the Canadians and Saskatoon. Thursday night will be the first skating night.

A by-law providing for nominations being received on Dec. 23, and the municipal election on Jan. 1, in the township of Saltfleet received its first reading at a meeting of that council at its last meeting.

A meeting of the town water commission was held on Thursday night, Nov. 6, when the final accounts for the installation of the heating system at the pumping station were discussed and passed.

The High School Literary society held its elections on Friday night last. The following officers were elected for the year: Harold Whewell, president; J. Ramsden, first vice-president; H. Phillips, second vice-president; M. Michener, secretary; D. Allan, treasurer. After a program of musical numbers, dancing completed the evening.

Residents of Fruitland claim that a fiery cross was seen on Wednesday evening on the mountain brow east of the village. The hazy atmosphere prevented the people from having a clear view, but they are of the opinion that the cross was about the same size as the others which have been seen recently in Stoney Creek and Winona districts.

The Guild, this year, will have a Home-made Cooking Table at their Bazaar in the Parish Hall, Thursday, November 20. They will have for sale, home-made bread, ham, doughnuts, pies, cakes, butter, also all kinds of vegetables, cooked meats and chicken salad, canned fruit and pickles. Remember the date and place—Thursday, November 20 at the Parish Hall.

The annual Armistice Masquerade dance at the Deer Park Golf and Country Club on Friday evening last was a huge success. There was a very large crowd in attendance and the costumes were many and beautiful. Miss Mills of Hamilton and Miss Phyllis Roberts were awarded the ladies prizes while Thelma Woolverton and Harold Woolverton won the gentlemen prizes. A dainty lunch was served at eleven o'clock. Norton Orchestra provided the music.

A new Canadian Pacific railway time table has been issued dated Nov. 1. According to this schedule, trains leave Hamilton for Toronto at 6:40, 7:15, 8:35, 10:35 a.m.; 12:33, 4:25, 7:25, 8:10, 8:30 p.m. Leave Hamilton for Niagara Falls and Buffalo at 9:03, 10:28 a.m.; 2:13, 4:30, 6:18, 9:03 p.m. Leave Toronto for Hamilton at 7:50, 8:25, 9:15 a.m.; 1:00, 2:15, 5:00, 7:00, 7:45, 11:15 p.m. "s" means daily except Sunday; "e" means daily except Saturday; all others are daily.

The inmates of the Lincoln county Industrial Home received a highly appreciated surprise on Thanksgiving Day in the form of candies for "ladies and smoking tobacco for the men. Each of the women received a box of candy and the men each a half pound tin of tobacco. The gifts, accompanied by suitable Thanksgiving cards, were sent by the Hamilton Hindoo Kosh Grotto, which has nearly 100 St. Catharines members. The old folks will long remember the kindness of the Grotto in making the day more merry.

A very large congregation turned out on Sunday morning at St. Andrews church. A memorial service was held for those who sacrificed their lives in the Great War. Rev. J. Allan Ballard, rector of the church, had charge of the service, and before starting his ceremony extended a hearty welcome to the veterans and expressed his pleasure at having them join the congregation on an occasion of this kind. His sermon was made up on the words, "Love your neighbor and love your God." Arthurs were rendered by the choir, with H. Snelling as soloist.

Major H. H. Kidd, secretary of the Grimsby Hockey Club wishes to state that there is no connection between the dance being held next week in the Village Inn, by the Ladies Hockey Club, and the one to be held the following week by The Grimsby Hockey Club. It is the intention of The Grimsby Hockey Club to hold a dance in the Inn the week of November 24th, in honor of the Canadians and Saskatoon Sheiks, the exact date of which will be announced in a couple of days. This dance Major Kidd claims will be the biggest one ever held in Grimsby as many special attractions will be part of the evening's entertainment.

Floyd McNish of Toronto spent the week-end with his parents.

Mr. and Mrs. A. J. Ockenden spent Thanksgiving week-end in Woodstock.

Owing to Monday being a holiday and the great rush of late advertisements that came into the office on Tuesday, many good articles are crowded out of this issue.

P. Wickes, formerly of Haldimand, Ontario, and Mrs. J. H. Hendershot of Toronto, were repairing the line and had told young Hendershot that the wire was dangerous and he took his dog back to the home so it could not run into the wire. It then returned and evidently curious as to whether the wire was alive or not, touched it with his thumb. He was shocked down but immediately recovered himself for a few seconds on the moon side of the fourth concession just east of Beamsville, was electrocuted on Sunday morning.

## TOWNSHIP ROAD WORK

(Continued from Page One)

years ago and is in splendid shape with the work that has been done this year.

From the Ridge road south through Lots Three and Four on the line between Concessions Twenty and Twenty-one, the road was graded last year and is in the best of shape. Here side trip was made to look at some ditching that was required.

From the Woolverton mountain road east on the line between Concessions Four and Five the road has been ditched and graded, and the approaches to the Fort Creek bridge levelled up in proper shape.

In the fourth Concession between Lots Twelve and Thirteen is a bridge over the Forty which had in the past such low approaches that the creek would run over the road at both ends of the bridge. This has been remedied, but though it is a forty-foot bridge the council received a communication from a legal firm that if adjacent lands were flooded as a result of the council running the water under the bridge, the council would be held liable for damages.

On the line between Concessions Three and Four (Elm Tree road) through Lots Nine, Ten, Eleven and Twelve the road was graded this year to great advantage, and a number of trees on the west corner of Twelve have been cut out giving the sun a chance at the road. East of the Forty bridge on the south side of this road several rods of the have been put in and a very deep ditch filled up.

From the Elm Tree road north to the Ridge road between Lots Ten and Eleven a horrible road has been made into a good one by proper grading.

Kerman avenue from Livingston avenue to Lake street has been given a coat of cinders putting it into A1 condition, and Lake avenue has been resurfaced from Kerman to the Oaks road, the gravel having been obtained from the beach at the pier erected by the township on the W. E. Smith property.

The Oaks road from Lake to the lake shore has been ditched and graded; this being the only sidewalk in the west end that goes to the lake shore.

Both the old and new Cline mountain roads have been ditched and gravelled to the foot of the hill, and

the old road running from one to the other has been graded.  
All of the council members present were very pleased with the work Superintendent Russ has done, and pointed out a few more places that need attention if the weather permits the work to be done this year.

First show will begin at 7:15

## McARTHUR-COOPER

A quiet autumn wedding took place at the Presbyterian manse, Beamsville, on Tuesday afternoon, November 11th, when Kathleen Agnes, only daughter of Rev. William and Mrs. Cooper, was united in marriage to Albert Clarence McArthur, son of Mr. and Mrs. A. J. McArthur, all of Beamsville. Owing to illness, the bride's father was unable to officiate, and Rev. G. S. Scott of Fenwick performed the ceremony.

The bride, who was unattended, was charmingly attired in a French beaded gown of brownorgette and carried mauve chrysanthemums. The living room was beautifully decorated with yellow and bronze chrysanthemums, the library with marigolds and the dining room with mauve chrysanthemums.

After a buffet luncheon Mr. and Mrs. McArthur left by motor on a honeymoon tour, the bride travelling in a brown marvellous coat with fitch collar and toque to match—Express.

## RAN BIG STREET CAR; GIRL HURT

On Tuesday morning at the 8.40 H. G. & B. westbound car was taking on passengers at the Grimsby station, Sid Saunders of Bramford, a traveller for the Ontario Piano and Music company of St. Catharines, driving a Gray Dori auto, ran into Miss Margaret Hughes, daughter of R. H. and Mrs. Hughes, Main street west. The impact was sufficient to bend the standard and break the glass in the left headlight of the car, and the girl was dragged about fifteen feet, the wheel running over her leg.  
E. B. Murdoch, who had just alighted from the trolley car, picked her up and carried her into Dr. Buck's office, and after medical attention she was able to be driven to her home by Saunders.  
A charge of driving past a standing street car was laid and Saunders was fined \$5.00 and costs.

## IN MEMORIAM

GRANT—In loving memory of

Jimima, wife of William Grant, who died Nov. 9th, 1923, and of Archie, who died Nov. 7th, 1922.

They never quite leave us those who have passed  
From the shadows of earth to the sunlight above,  
A thousand sweet memories are holding them fast  
To the homes that they blessed with their presence and love.

## CITY LIONS VISIT GRIMSBY

A very successful meeting for the formation of a Lions Club was held in connection with a dinner at the Village Inn on Tuesday evening, November 4th when a 172nd number of members of the Hamilton and St. Catharines clubs were in attendance to explain the objects and principles of Lionism.

Percy H. Brooks of Hamilton occupied the chair. The dinner was enjoyable and was interspersed with Lions songs and roars by the visitors, the St. Catharines contingent being especially loud in their roars for pie and yet more pie.

Among those present were W. J. Reynolds, H. M. Bate, A. J. Bellie, H. E. Johnston, the Rev. A. H. Howitt, R. J. Magnus, J. S. Carleton, J. S. Smith, A. W. Horton, F. H. Avery, H. L. Cummings, Col. Frank McCordick, of St. Catharines; T. A. Blanchard, P. H. Brooks, A. Oram, Ross Clement, W. Shin, C. Price, W. Armstrong, H. Wasstaffe, P. Prack, Harry Kent, E. Linger, A. Swenger, Alf Stiles, Dr. Woodhall, Dr. McEwen, W. J. McEwen, of Hamilton; Arthur Brookwell, Chicago; Vernon Tuck, E. V. Hoffman, J. H. Culp, C. M. Bonham, R. H. Kidd, J. A. M. Livingston, Dr. L. L. Buck, C. D. Wells, A. Boulter, R. W. Bryden, J. S. Jackson, Jas. A. Livingston, N. Servais, A. M. Millward, C. P. Brown, Albert E. Moss, J. Orion Livingston of Grimsby.

Fred H. Avery the district representative the first speaker, in the course of his remarks said that "Lionism was more necessary than anything that had preceded it." That "Lionism gave a service similar to the knights of old—a service that cannot be commanded by a fee." There has always been worthy causes for this kind of service in every age, and in Lionism we are able to accomplish things that other forces do not cover. There was no one man big enough to accomplish what Lions clubs can. Co-operation of men was necessary, and the Lions clubs were organized to co-operate and give service to state and community. Men who were asked to join the Lions had been investigated and thought over by the organizer, and those chosen who will be companionable and work in harmony of any creed or any politics. After Lions clubs got going people wondered how the community had ever got along without them before.

Lions have justified their existence by their rapid growth. The willingness to help is inherent in all men; the Lions bring it out, and co-operation makes it easy. It was hard to explain to an outsider just what Lionism means; the periods of pleasure in the clubs were but means to an end—service. The speaker told of a Labor Day activities of the St. Catharines club when the members started out to raise money to assist a tuberculosis sanatorium and had raised \$2,200, and on the last holiday had raised through booths and games at a day of sports \$1500 for charitable purposes. Mr. Avery in closing mentioned that some objected to the Lions as the headquarters were in the United States, but such was the good fellowship feeling among Lions that at the last annual convention at Omaha, where there were 2000 delegates from all over the States, they had seen fit to elect a Canadian as president of the organization.

The Rev. Arthur Howitt gave four lucid reasons why he enjoyed being a Lion. The Lions code of ethics, was read to every new member with the admonition to live up to that code; another reason was co-operation. The world was getting smaller and the only hope of a peaceful world was co-operation. The spirit bred by Lionism was the spirit to contend with the great problems Canada will be called upon to face.

The child welfare feature of the Lions clubs appealed very strongly to him. He spoke of the big convention at Omaha where one little blind boy had read by the Braille system the letter from another blind boy thanking the Lions for the education they had given and the care they had taken of him. Anyone coming into the Lions with any selfish motive was making a mistake; the keynote of the clubs and of Lionism was Service. The fourth reason was that Lionism was on a rising tide, and all wanted to get in on a good thing.

Jas. A. Livingston, mayor of Grimsby, welcomed the Lions to Grimsby, and in his remarks brought out a point that appealed strongly to visitors and local men—the welding together with the help of the Lions, the many nationalities of Canada's population. From what he had heard from the district representative he had become convinced that the Lions were the body pre-eminent to perform this work. And as for a philanthropic part he cited several of the bigger men who had done great work in Canada, but here again the Lions constituted the means to an end that individual work would never reach. Arthur Brookwell the International Representative explained Lionism and gave statistics showing the enormous good the organization was doing. In his address he said: "A Lions club is established by the business and professional men who have been selected, agreeing to form themselves into an association for the purpose of bringing together the various lines represented in the town, for their mutual advancement and their combined influence may be exerted and utilized for the welfare and uplifting of their town and community and for the benefit of society at large, recognizing that there is no influence in any community more potent or powerful for the accomplishment of good than that of the business and professional men, unselfishly banded together for the purpose of promoting the general

We Are Ready to Outfit You With Skates, Shoes and Other Accessories, for the Opening of The Arena on Thursday Night, Nov. 20th.

## Skating on C.C.M. Chrome Nickel Steel Is Exhilarating

As one enthusiastic skater said: "Skating on C. C. M. Automobile Skates is just like flying. You glide along with hardly an effort."

Much of this exhilarating difference is the result of the steel used.

C. C. M. Automobile Skates are made of Special Chrome Nickel Steel as used in the costliest motor cars and the finest edge tools.

This steel takes a hard, keen, knife-like edge that grips the ice so you get full power out of every stroke. And it glides along the ice with marvelous ease and swiftness.

While hard as glass on the outside C. C. M. Skates are not brittle. The ingenious C. C. M. heat-treatment leaves an interior "core" of tough steel, that makes C. C. M. Skates practically unbreakable.

You've maybe skated on your old skates a long time now. Why not put on a pair of C. C. M. Skates and enjoy the thrill of skating on Special Chrome Nickel Steel?

Models and sizes to fit ladies, men, girls and boys.

"Good Shoes For Over Sixty Years"

GRIMSBY

welfare of the entire membership.

"The further purpose of this association is to unite its members in the closest bonds of good fellowship and to promote a close, business and social union among them; to encourage active participation in all things that have to do with commercial, civic and industrial betterment; to uphold the principles of good government; to assist, in every honorable way, in furthering the interests of its members and toward bringing about a better understanding among men; to teach that organization, co-operation and reciprocity are better than rivalry, strife and destructive competition; to encourage the application of the highest ethical standards in business and seek, by the exchange of methods and ideas, to increase efficiency in all lines represented."

"It will also be the purpose of this association to take part in any meritorious movement which, in the judgment of its members, will be for the general good and it may offer its co-operation (when advisable) to other organizations engaged in laudable endeavors for the public welfare."

To show the great and extensive work being carried on by Brookwell quoted the following statistics:  
Clubs engaged in or supporting activities relating to moral development—Encouragement of Boys and Girls Clubs, such as, Boy Scouts, Camp Fire Girls, Big Brotherhood, Junior Lions, et al; establishment of Juvenile Courts, probation officers and social workers for delinquents; care of orphan and neglected children, 194.  
Clubs engaged in or supporting activities in Child Welfare or Boy Work relating to physical development—Children's playgrounds, crippled children welfare, clinics for babies, Braille System for blind, furnishing milk funds, care of pre-tubercular or tubercular, fresh air activities, sending boys to farms, camps, picnics, outings, promotion of games and sports, promotion of entertainment, lectures, etc., 201.  
Clubs engaged in or supporting activities relating to mental development—Educational programs through the Schools, Scholarships and other aids, institutional care for subnormal children, social centers, and aiding vocational guidance and placement, etc., 85.  
Clubs engaged in or supporting activities relating to civic advancement—City parks, support of Building Loan Association, better roads, tree planting, development of ports, safety railway crossings, trade carnivals, promotion of water works, assisting Chamber of Commerce, supporting libraries, public swimming pools and skating rinks, public school facilities, County Fairs, street markers and welcome signs, increasing traffic police, etc., 430.  
Clubs engaged in fund raising activities—Supporting County and School nurses, milk funds, donations, Red Cross, Christmas cheer, Community welfare, Community chests, Tuberculosis Clinics, equipping gymnasiums, furnishing beds in hospitals, Japanese Relief Fund, Hospital for disabled soldiers, Homes for Boys, Boy Scouts buildings, etc., 262.  
Clubs engaged in patriotic activities—Building memorials, parades, celebrations, Americanization and Naturalization work, organization of Boy Scouts troops, promotion of patriotic essays, etc., 78.  
Several of the Grimsby men spoke and all were of the opinion that a Lions Club was a need in Grimsby, and expressed opinions that if other and better ones could do as they had done there was no reason why Grimsby could not do it. A most invariably they received hearty support, and a Lions Club for Grimsby is practically assured.

## NOTICE

JUDICIAL SALE IN THE SUPREME COURT OF ONTARIO

Roy E. Secord, Liquidator of Gourlay & Feggetter Limited (Plaintiff), and Harriet Edith Beatty and Arthur C. Gourlay (Defendants).

PURSUANT to the judgment made in this cause, dated the 22nd day of October, 1924, and to the direction of His Honor Alexander D. Hardy, Master of the Supreme Court at Brantford, there will be offered for sale by public auction, by James A. Livingston, Esquire, at the office of the Grimsby Independent newspaper, in the Town of Grimsby, on Saturday the 15th day of November, 1924, at the hour of three o'clock in the afternoon ALL AND SINGULAR that certain parcel or tract of land and premises situate lying and being part of Lot number twenty-one in the second and third concessions in the Township of North Grimsby in the County of Lincoln in the Province of Ontario, and more particularly described as follows: Commencing on the easterly line of the road commonly known as the Cline Mountain Road distant eleven hundred and forty-two feet and two inches southerly from the right of way of the Hamilton, Grimsby and Beamsville Electric Railway measured along the easterly limit of the said Cline Mountain Road four hundred and ninety feet and two inches; thence south seven degrees and thirty minutes east four hundred and twenty-eight feet and two inches; thence north sixteen degrees and thirty minutes east, five hundred and six feet and seven inches to a stake; thence north seventy-four degrees and thirty-six minutes west four hundred and forty-six feet and six inches more or less to the place of beginning, containing by admeasurement five acres.

Further particulars as to the property offered for sale and the terms and conditions of sale may be obtained at any time prior to the sale from Henderson and Bocky, 114 Balmouie Street, Brantford, Ontario, or from G. B. McConachie, Esquire, Grimsby, Ontario. The conditions of sale will be read at the time of sale.

Dated at Brantford this 27th day of October, 1924.

A. D. HARDY, Local Master at Brantford.

## Do they answer your questions?

The young people, in their letters from school, seldom tell you what you really want to know.

But how different when you call them by Long Distance! Jack says he is all over his cold. Mary is no longer homesick and is perfectly happy.

The load is lifted from your mind. And how the absent ones do enjoy hearing the familiar voice!

No matter how gloomy the weather, a talk with the young people by Long Distance will always bring sunshine into their day as well as yours.

Look up in your Telephone Book the lower rates for Station-to-Station calls after 8.30 p.m.

## MANY ATTEND DEANERY MEET

About one hundred and seventy-five delegates, representing all parishes within the Wentworth deanery, attended the annual meeting of the women's Auxiliary of the Church of England, held in Winona on Thursday. Briefly, the program provided for the celebration of Holy Communion in the morning, luncheon for the delegates in Winona Institute hall, and the business meeting commencing at 1:30 o'clock in the afternoon, when the diocesan president, Mrs. Leather of Hamilton, presided.

Following the address of welcome, delivered by Rev. H. A. West, general business was transacted. This included roll call of the delegates, reading of the financial report, which proved very encouraging; reception of the various branch reports and selection of a place for next year's meeting, and Taplestown was the meeting choice.

During the afternoon Miss Nina Woolverton of Grimsby, was an interesting speaker on the subject of church and women's auxiliary literature, and Rev. W. H. Gale, a returned missionary from Japan, discussed the work in that country.

Mrs. G. F. Thompson of Hamilton was re-elected for the eighth term as deanery secretary.

Contributions of goods for the mission fields were sufficient for two bales. Branches represented at the meeting were Stoney Creek, Aldershot, Dundas, VanWagner's Beach, Burlington beach, Waterdown, Bartonville, Ancaster and Winona, the latter having more than twenty-five members in attendance.

Rev. Mr. West occupied the pulpit during the morning service, and he was assisted by Rev. Rural Dean Chittcott and Rev. W. G. O. Thompson.

Members of the local branch are deserving of commendation for the high degree of success which attended the meeting, their program being carried through without interruption.

## FLOWING MATCH

The fifty-third annual plowing match of the Salford Plowing society was held on Wednesday, Nov. 5, on the farm of Wm. Smye, near Vine-mountain, and was a success though some of the classes were not as well filled as in some former years. The prize winners were:

Special Long Plow—C. Parker, J. Young, E. Corman; beginning—C. Parker; finish—C. Parker.

Special Jointer—S. Tweedie, K. Young, O. Tweedie, J. Johnson; beginning—Ira Tweedie; finish—Ira Tweedie.

First jointer class—R. Young, Jas. D. Stewart; beginning—R. Young; finish—R. Young.

Second jointer class—F. Stewart; beginning—F. Stewart.

Boys', under 18—Lorne Marshall, H. Haws; beginning—L. Marshall; finish—L. Marshall.

Single riding plow—H. Hildreth, Jas. Leggett; beginning—H. Hildreth; finish—H. Hildreth.

Two furrow—W. Fletcher; beginning—W. Fletcher.

Tractors—E. Hildreth, K. Milmine, J. Leggett; beginning—E. Hildreth; finish—E. Hildreth.

Sweepstake—R. Young was successful in winning first claim on silver tea set.

Straightest plowing in field—R. Young.

Best beginning in jointer—R. Young.

Best finish in jointer—S. Tweedie.

Best plow team—H. Hildreth.

Best kept team—Ira Tweedie.

Oldest plowman—E. Corman.

Youngest plowman—H. Haws.

Plowman foot race—J. Young.

Ladies foot race—Bertha Clark.

Ins and outs—J. Johnson.

Best plowed land being plowed by a I. H. C. tractor—E. Hildreth.

The officers for this year were:—G. M. Southward, president; Joseph Bradt, first vice president; Wm. Bradt, second vice president; Wm. Dewar, W. E. Corman, Hugh Bertram, J. D. Stewart, Alvin Corman, E. Alt-house, Harley Merritt, Elmer Hildreth, W. J. Bradt, Hamilton Lee, Jos. Bradt, Geo. Lee, Ira Tweedie, Harvey Hildreth, Alway Watts, Stephen Tweedie.

Life members—Senator E. D. Smith, Maj. Armand A. Smith, J. W. Smith, R. H. Dewar, J. B. Pettit, Stephen Tweedie, Hamilton Lee, Edward Corman, Alvin Corman, Geo. Southward.

## WHY PATRONIZE THE ITINERANTS?

Again does Brother Westland, of the Beamsville Express, hand out something good that fits Grimsby—and nearly every other community.

He says: If it is a traveller or a peddler, no matter what line he represents, turn him down frankly, if you can get what you want in your home town. Just allow a few of these agents to get the idea in their heads that we consider our town ahead of any outside burg, and that we would sooner help the fellow here who is paying his share of the taxes, than some concern in "fronts." This advice applies to the merchants themselves as well as to others.

A very clever lawyer succeeded in winning his client's case and getting the better of a rather bungling fellow-lawyer. The latter couldn't conceal his chagrin, and, meeting his victorious opponent in the smoke-room of the hotel at which they were both staying he remarked in a loud and cheerful tone:

"Sir, in these days cases too bad for you to tackle, or any criminal so much dyed in crime that you won't defend? The other puffed his cigar and replied loud enough for everyone present to hear:

"No; what have you been doing now?"

"Owe my life to Carnol," says Mr. Sinclair

Following a railway accident, after other medicines failed, he got relief from two bottles of Carnol.

The train after needs no comment from us. We leave Mr. Sinclair to tell you about his experience in his own words:—"I was very much run down and nervous following a railway accident some years ago. Medicines failed to give me any real help, so I decided to try Carnol. I did not have any faith in a patent medicine, but a friend of mine said Carnol was far superior to any other of the so-called patent medicines. 'Give it a trial,' he said, 'and let me know the results.' I am glad to say this wonderful medicine has done for me what no other medicine has done, and it therefore gives me great pleasure to give this evidence in favor of Carnol. I would advise all business men who feel, after the strenuous life of the world, that they need a building up tonic, to take Carnol. It is only by giving it a fair trial that they will know its splendid qualities.

After using the first bottle I noticed a marked improvement. My appetite improved and after the second bottle I could eat like a horse, even raw potatoes and onions would be as welcome as apples. I slept like a log and after a refreshing sleep, I was able to take up the strenuous work of the hustling insurance agent. This work calls for considerable nervous energy in closing business and I can say, with confidence, Carnol has no superior in the medicine line. I would suggest that your company give this letter a most conspicuous place, so that everyone may know what a great medicine is before the public as a restorative tonic and flesh builder. I say, with all confidence, I owe my life to Carnol. Nothing equals this medicine."—Gordon M. Sinclair, Chatham, N.B.

1-24

## SEVENTY YEARS IN SALT FLEET

John Penfold, sen., of Taplestown, was 91 years old yesterday, Tuesday, Nov. 11, and is one of the earliest settlers of this district. He came to Saltfleet township 70 years ago from England.

Despite his advanced years, Mr. Penfold is enjoying the best of health, and he can remember incidents which occurred over 60 years ago. It seems almost unbelievable, in these modern times, that the ship he crossed over in was a month and twelve days in making the trip to New York.

At that time there was no railway running into the city of New York, Albany was the terminus, so Mr. Penfold sailed up the Hudson to that town to get a train for Canada. When he arrived at Niagara Falls he was compelled to walk across the bridge, because at that time the "Iron horse" did not cross.

He settled in Stoney Creek, and after parting with his last shilling got work with a farmer on the mountain with a magnificent yearly salary of \$90. After a year on the farm he became his own master, and three years later married the youngest daughter of the late James Lee, mountain top. She died in 1904.

Of his family of nine, the eldest son, Stephen, and the eldest daughter, Catharine, have died. Those living are: Joseph and John, of Penfold Bros. feed store, Hamilton; Enoch, also of this city; James, on the old homestead at Taplestown; Avery of Grimsby; Arthur of Strabane, and Mrs. James Hildreth of Taplestown.

## NEW SCHOOL IS NEARLY READY

Principal Auld of the Beamsville High School reported at the monthly meeting of the board of education on Thursday night, Nov. 6 that there is now an attendance of 182 at the high school. The enrollment is made up as follows: Form one, 45; form two, 35; form three, 31; form four, 10; form five, 16; commercial, 41. The commercial class, the principal reports, has now reached the seating capacity of the rooms.

It is the intention of the board to open the new building about the end of the month, if arrangements can be made to secure the minister of education at that time. In the meantime the removal of a number of classes from the old to the new building will be made.

Plans were laid out and arrangements made for the purchase of apparatus in order that basketball and softball games may be started as early as possible in the new auditorium. New chemical equipment was placed on order for the agricultural laboratory, to cost around \$2,000.

The daughters of the Empire asked for permission to hold a social function in the auditorium at the first available date after the opening and their request will be granted.

Principal Hicks reports an attendance of 215 at the public school, quite a number of pupils there having been granted leave of absence the past month on account of fruit-picking.

## "SMILIN' THROUGH"

"Smilin' Through," the great comedy success by Allan Langdon Martin which was originally produced in New York with Jane Cowell and a superlative supporting cast, has been selected as the offering at the Theatre, Hamilton, week of Nov. 17th.

"Smilin' Through" should prove one of the most attractive productions that has ever been staged here and Manager Schuyler is to be congratulated upon his progressiveness in securing so famous a play for presentation locally. It is typical of the progressive spirit that marks all of his efforts at the local playhouse.

After a prologue that is far too unique to be spoiled by being told in advance, starts in the garden of a crusty old man who has as his ward, a delightful wisp of an Irish girl with all the charm of the central in "Peg O' My Heart". For years he has bitterly remembered the fact that another man has won the woman whom he loved. Therefore, when he finds that this girl has fallen in love with the son of the man, he is furious and avows that they shall never marry.

Right here, comes in the quaintness of the piece. Back through the hazy film of years that have passed comes memory visualized. He lives over again the years he cannot forget and from them learns the lesson that he had never learned before with the result that, when the young lover returns, he rewards them to be happy and, in so doing, finds happiness himself.

While there is a sweetness and inimitable charm in the story of "Smilin' Through", the skill with which the characters are drawn is probably the most attractive feature of this great play. It is one play in a hundred.

## WINONA BUSH FIRE

Fire broke out on Thursday in the bush along the face of the mountain, at the back of Wally Sagar's farm, near Winona. The blaze started in a ravine above the lower flats, and as the ground was covered with dead leaves and old stumps and the fire was fanned by a strong wind, it soon assumed serious proportions. All afternoon and during the early evening a gang of fifty men battled to subdue flames, and they had apparently succeeded during the evening. Four men were left on guard during the night, and early this morning a terrible rain again experienced, the result that a general call for help was again sent out. At noon the fire appeared to be under control, although smoke was creating some nuisance. The chief concern of the fire fighters was to prevent the fire from reaching neighboring buildings.

## QUACK NOT NOW TO BE "CURE"

The Federal Department of Health has issued instructions that the word "cure" shall henceforth not be used in connection with any preparation, whether veterinary patent medicines or medicines in connection with which the complete formula is given. The new order includes every veterinary preparation in which drugs are used, and the word "cure" must not only be banished from the label, but it must not be blown into the bottle or put on any such articles in any shape or form.
